Content Pool: Bali Healing

Homepage first. Existing site, 58 pages. Integrative clinic in Canggu for expats and visitors. No HWG: client rules and Google health policy apply.

Date **2026-10-11** | Mode **existing** | Items **42** live, **3** cut | Paid data **0.42 USD** of 5 USD cap | Competitor sites **25** (3 unreadable) | Validator **passed**

What you must know first

The homepage is below the competitor floor. It has 452 words. The floor from gate A0 is 612 words (70 % of the median 874.5 words of 12 clinic homepages). It shows no team, no price, no FAQ and no phone number. It carries the same H1 twice.

Items: CP-LOC-001, CP-AUT-001, CP-SVC-005, CP-SVC-022, CP-LOC-002

Skin tag, wart and mole removal is the clearest real demand. Search Console shows 666 impressions and 64 clicks in 90 days. The client moved its ads focus here on 27 August. The page has 740 words and states no price.

Items: CP-SVC-001, CP-SVC-002

IV drip is the biggest service search and the clinic is invisible for it. "iv drip bali" has 1,300 searches a month. The Maps top-3 share is 0 percent. 12 of 22 clinic sites have an IV drip page. The clinic page says "infusions" and one page is set to noindex.

Items: CP-SVC-004, CP-SVC-005, CP-SVC-022

Ozone is falling. The Maps top-3 share fell from 57.1 to 34.7 percent in 14 days. The market leader holds the Medical clinic category, which the main profile lacks. The site has four ozone pages and no price. Searches: "ozone therapy" 720, "ozone therapy bali" 210.

Items: CP-SVC-003, CP-LOC-006

Price is the common gap. None of the 58 own pages names a price. Only 5 of 22 competitor sites show one. People search for cost: "skin tag removal bali price", "iv drip bali cost", "acupuncture bali price".

Items: CP-SVC-005, CP-SVC-021

Brand search carries the site. Brand queries bring 6,005 of 12,876 listed impressions (47 %). Many other "healing" queries (retreat, spa, screaming therapy, sound healing) have no matching service. They need a client decision.

Items: CP-BRD-001, CP-SVC-023

Large volumes are traps. "bali belly symptoms" has 4,400 searches, "colonic hydrotherapy bali" 140. Naturopathy and live blood analysis were given up by the client on 30 July, but pages and profile still show them. Maps shows 71.4 percent for naturopath.

Items: CP-SVC-024, CP-SVC-027, CP-SVC-026

Trust needs real names. The pages show no doctor, no licence and no team section. This is the most sensitive item because of the licence question for foreign practitioners. Reviews are good (4.7 with 100) but no review has an owner reply.

Items: CP-AUT-001, CP-AUT-002, CP-AUT-003

Data limits. Three competitor sites could not be read: baliozonetherapy.com and bodhicittaacupuncture.com do not resolve, and osteocanggu.com shows a maintenance page. thedosebali.com blocks readers (403). Claims about the ozone and acupuncture leaders carry this caveat. The Maps numbers come from the client audit of 11 October. Nothing was rescanned.

Items: CP-SVC-003, CP-SVC-006

The four pillars

Location

5 items · 1 A · 3 need the client

Hero and title with Canggu and the service words, one H1. A location block with address, hours, WhatsApp, parking and access. Areas named in text, no area pages (one address). Fix the entity data: structured data, Apple Maps, one name everywhere.

Top items

1. Hero, title and H1: integrative clinic in Canggu (one H1 instead of two) (75)
2. Location block: Jl. Pantai Batu Bolong 117X, map, WhatsApp, hours Mon-Fri 09-17 and Sat 09-13, access (73)
3. One name and one address everywhere: Google profile name, site, Apple Maps (old domain balihealing.org), No.117 vs 117X (64)

Main service

25 items · 17 A · 14 need the client

Twenty service groups on the site. Lead with skin tag and mole removal, IV drip, ozone and acupuncture. Give every treatment page a price range, steps and a doctor-checked FAQ. Re-open the IV and acupuncture pages. Naturopathy, live blood analysis and detox stay out.

Top items

1. Osteopathy: strengthen the page that already ranks first for 'osteopath canggu' (93)
2. Skin tag, wart and mole removal: own page with price range, steps, aftercare and the mole check first (90)
3. Ozone therapy: hub and one page per treatment (major and minor autohemotherapy, insufflation) with price range and steps (90)

Brand

5 items · 1 A · 2 need the client

One sentence for what Bali Healing is, with two doors (Wellness and Beauty). English, WhatsApp, payment and insurance facts for expats. Voice rules: no country references, Indonesian doctors and nurses, no miracle words.

Top items

1. One clear sentence for what Bali Healing is: a medical and holistic clinic in Canggu with two sides (Wellness, Beauty) (75)
2. Two audiences, two doors: patients for health care and clients for beauty, with one shared consultation (66)
3. Voice and framing rules: no country references, 'Indonesian doctors and nurses', calm medical tone, no miracle words (46)

Authority

7 items · 0 A · 2 need the client

Doctors and practitioners with names, licence type and photo, only with proof. Real proof strip (4.7 with 100 reviews, serving Bali since 2006). Reviews that name the treatment, with owner replies. Aftercare pages. Listings and the backlink review go to the backlink workflow.

Top items

1. Proof strip: Google 4.7 with 100 reviews, 'since 2006', treatments per year (only real numbers) (74)
2. Who treats: doctors and practitioners with names, licence type, years and photo (Indonesian framing) (72)
3. Reviews that name the treatment: ask in the booking flow, show quotes with consent, reply to every review (71)

Homepage map: where the pool plugs into the CRO blueprint

The 10 rows are the CRO P0 blueprint. The pool never removes a row. It ranks what goes into each row.

CRO ROW	POOL ITEMS (BEST FIRST)
1 Hero	A Hero, title and H1: integrative clinic in Canggu (one H1 instead of two) CP-LOC-001 A One clear sentence for what Bali Healing is: a medical and holistic clinic in Canggu with two sides (Wellness, Beauty) CP-BRD-001
2 Proof strip	B Proof strip: Google 4.7 with 100 reviews, 'since 2006', treatments per year (only real numbers) CP-AUT-002
3 Is this for me?	B Two audiences, two doors: patients for health care and clients for beauty, with one shared consultation CP-BRD-002 C For expats and visitors: English, WhatsApp, payment in IDR and by card, receipts for insurance CP-BRD-003 C Team and consultation-first method: how the services fit together, who refers to whom CP-BRD-005
4 Services	*No pool item. The CRO blueprint row stays as is.*
5 First visit	A Price ranges on every treatment page (no page names a price today) and a clear line 'consultation first' CP-SVC-005 B First visit and booking: how WhatsApp booking works, what the consultation is, reply time CP-SVC-021
6 About the practitioner	B Who treats: doctors and practitioners with names, licence type, years and photo (Indonesian framing) CP-AUT-001 C Voice and framing rules: no country references, 'Indonesian doctors and nurses', calm medical tone, no miracle words CP-BRD-004
7 Reviews	B Reviews that name the treatment: ask in the booking flow, show quotes with consent, reply to every review CP-AUT-003
8 FAQ	B Question hub: cost, safety, aftercare, who should not receive a treatment (from Google autocomplete) CP-SVC-022
9 Location	B Location block: Jl. Pantai Batu Bolong 117X, map, WhatsApp, hours Mon-Fri 09-17 and Sat 09-13, access CP-LOC-002 C Structured data: MedicalClinic with hours, geo, sameAs, service list and areaServed CP-LOC-005 C Name the areas people come from in text (Berawa, Pererenan, Seminyak, Umalas) with drive times, no area pages CP-LOC-003
10 Closing CTA	*No pool item. The CRO blueprint row stays as is.*

Items for other pages (one line each, ready for the next page run)

PAGE TAG	ITEMS
blog-faq	B Aftercare and safety pages for the top treatments (skin tag, IV drip, ozone): steps, who should not, what to do after CP-AUT-004
later	B Breathwork, sound healing and screaming therapy: queries without a matching service CP-SVC-023 B IV drip at home (home service, 'Bali belly' and hangover use) CP-SVC-024 B General doctor and urgent care ('doctor Canggu', 'clinic Canggu') CP-SVC-025 C Answer-ready blocks for AI search: one clear paragraph per treatment (what, who, where, price range) CP-AUT-007
offsite	B One name and one address everywhere: Google profile name, site, Apple Maps (old domain balihealing.org), No.117 vs 117X CP-LOC-006 C Link and citation targets: Tripadvisor, Finns guide, Honeycombers, Bali Done Right, WhatClinic, Fresha, ClassPass CP-AUT-005 C Backlink check: 1,001 referring domains (44 on 8 September) with spam score 51-53, 25 broken links CP-AUT-006
service:acupuncture	A Acupuncture and TCM: own indexed page 'acupuncture Canggu' with who treats, steps and price CP-SVC-006
service:beauty-hub	A Beauty clinic hub: dermatologist consultation, treatment menu, link to each treatment CP-SVC-020
service:body-skin	B Acid peeling, CellreJet and PPC fat reduction: one body-and-skin cluster CP-SVC-019
service:craniosacral	A Craniosacral therapy: page with who it is for and what happens CP-SVC-009
service:dermatoscopy	A Mole check (dermatoscopy) as the safe first step into skin tag and mole removal CP-SVC-002
service:facials	A Facials: HydraGlo, basic and advanced rejuvenation under one 'facial Canggu' page CP-SVC-016

service:hypnotherapy	A Clinical hypnotherapy: page for 'hypnotherapy Bali' (320 searches a month) CP-SVC-012
service:injectables	B Skin boosters and injectables: hyaluronic acid, Nucleofill, DMAE mesotherapy CP-SVC-018
service:iv-drip	A IV drip: own page in market words ('IV drip Bali', 'IV drip Canggu'), menu and steps. The current pages say 'infusions' and one page is set to noindex CP-SVC-004
service:microneedling-prp	A Microneedling and PRP (face and hair): clear page per treatment with steps and recovery CP-SVC-017
service:naet	A NAET allergy treatment: page and explanation 'what is NAET' (two pages exist, 718 and 856 words) CP-SVC-011
service:neural-prolozone	B Neural therapy and Prolozone: explain in daily language and link from pain topics CP-SVC-014
service:osteopathy	A Osteopathy: strengthen the page that already ranks first for 'osteopath canggu' CP-SVC-007
service:ozone	A Ozone therapy: hub and one page per treatment (major and minor autohemotherapy, insufflation) with price range and steps CP-SVC-003
service:physiotherapy	A Physiotherapy (incl. prenatal): add the page to the services block CP-SVC-008
service:reiki-access-bars	A Reiki and Access Bars: short pages, link them from one wellness hub CP-SVC-013
service:skin-tag-removal	A Skin tag, wart and mole removal: own page with price range, steps, aftercare and the mole check first CP-SVC-001
service:thetahealing	A ThetaHealing: keep the page that brings 81 clicks, state clearly what the session is CP-SVC-010
service:womens-health	A Women's health and gyneco-aesthetic consultation CP-SVC-015

Detail per pillar

All | A | B | C | Needs client | Adjacent

Location

LOC-001 A **Hero, title and H1: integrative clinic in Canggu (one H1 instead of two)** 75 homepage NONE review Draft

WHY

One address in Canggu (GBP, site). The home page carries the same H1 twice (page measures)

Fit 3 of 3. Patient audience. Item type: block. Section: hero

Question: Clinic or health center in Canggu, for expats and visitors

WHY

Of 7 reviews inspected, 5 name a treatment (good). None has an owner reply. Count was frozen for 7 weeks, then 3 new in two weeks

Fit 3 of 3. Patient audience. Item type: proof. Section: bewertungen

NUMBERS

Demand	54	basis: expectation
Gap	46	12 of 22 local+niche cover it (table stakes)
Fit	100	
Conversion	100	
Effort	67	higher = less work

Keywords (searches per month, 2026-10-11): none

Competitors covering it: revivemedicalbali.com, nusamedica.com, hydromedicalbali.com, primeplusmed.com, balichyhealing.com, drmadeitabali.com, mediraclinic.id, bloodozonebali.com, dripwellnessbali.com, hangoverloungebali.com, bodywisebali.com, marlilahealth.com

Share of clinic sites with a rating or review signal

Compliance note: No incentives and no fake reviews. Show quotes only with consent. No health claims inside quotes.

AUT-004 B **Aftercare and safety pages for the top treatments (skin tag, IV drip, ozone): steps, who should not, what to do after** 61 blog-faq NONE review Needs client

WHY

Autocomplete shows 'can you shower after skin tag removal', 'are iv drips safe'. A clinic that explains builds trust and answers the question before the call

Fit 2 of 3. Patient audience. Item type: page.

NUMBERS

Demand	45	basis: autocomplete
Gap	68	7 of 22 local+niche cover it
Fit	67	
Conversion	67	
Effort	67	higher = less work

Keywords (searches per month, 2026-10-11): skin tag removal aftercare **no data** *nat.*, iv drip safe **no data** *nat.*

Autocomplete: are iv drips safe; are iv drips painful; what is iv drip bali; are iv drips worth it

Live site: weak (https://www.balihealing.com/microneedling-collageninductiontherapy) Auto check. Confirm by hand.

Competitors covering it: nusamedica.com, hydromedicalbali.com, cocoonmedicalspa.com, bloodozonebali.com, mrchaiozone.com, dripwellnessbali.com, bodylabbali.com

Share of clinic sites with an aftercare or safety heading

Compliance note: Health-claim rule (Google health policy and client rule): no cure or treatment promises for diseases, no country references (no 'German', no 'CE-certified German'), frame the team as Indonesian doctors and nurses. Prices, results and safety claims only with proof. Written or approved by the treating doctor.

AUT-005 C **Link and citation targets: Tripadvisor, Finns guide, Honeycombers, Bali Done Right, WhatClinic, Fresha, ClassPass** 40 offsite NONE ok Draft

WHY

These portals sit on page 1 for the searches of the service list. They are link targets, not competitors

Fit 3 of 3. Patient audience. Item type: link-target.

NUMBERS

Demand	0	basis: none
Gap	25	0 of 22 local+niche cover it
Fit	100	
Conversion	33	
Effort	67	higher = less work

Keywords (searches per month, 2026-10-11): none

▼ Raw data (1 sources)

- serp 02-competitors/serp-5.json acupuncture canggu: finnsbeachclub, fresha, classpass on page 1

AUT-007 C **Answer-ready blocks for AI search: one clear paragraph per treatment (what, who, where, price range)** 38 later NONE ok Draft

WHY

ChatGPT and AI Mode name the clinic for ozone (B12.01). 14 sessions came from chatgpt.com in 7 days. Clear short blocks on each page raise the chance of citation

Fit 2 of 3. Patient audience. Item type: block.

NUMBERS

Demand	0	basis: none
Gap	25	0 of 22 local+niche cover it
Fit	67	
Conversion	67	
Effort	100	higher = less work

Cut items and why

SVC-027 **cut** **Detox and colon hydrotherapy ('colonic hydrotherapy bali' 140, 'detox bali' 30)** 39 cut NONE ok Cut

WHY

Not offered. Competitors rank for it (ozone competitor holds 'colonic irrigation near me'). Volume is a trap

Fit 0 of 3. Patient audience. Item type: cut-log.

NUMBERS

Demand	67	basis: volume
Gap	50	0 of 12 local cover it
Fit	0	
Conversion	33	
Effort	33	higher = less work

Keywords (searches per month, 2026-10-11): colonic hydrotherapy bali **140**, detox bali **30**

Decision note: Not offered. Keep out of ads and text.

▼ Raw data (2 sources)

- volume 03-demand/volume2.json colonic hydrotherapy bali
- volume 03-demand/volume2.json detox bali

SVC-026 **cut** **Naturopathy consultations and live blood analysis (pages still live, services given up by the client on 30.07)** 32 cut NONE ok Cut

WHY

The client stopped both services because of the licence question for foreign practitioners (audit B05.05). Pages and profile still show them, and 'naturopath' holds 71 percent in Maps

Fit 0 of 3. Patient audience. Item type: cut-log.

NUMBERS

Demand	41	basis: volume
Gap	50	0 of 12 local cover it
Fit	0	
Conversion	33	
Effort	33	higher = less work

Keywords (searches per month, 2026-10-11): naturopath bali **20**, naturopath canggu **no data**

Decision note: Conflict: pages and profile still list naturopathy and live blood analysis. Martin and the client decide: remove from site and profile, or reinstate. No pool target until then. Martin 13.10. (checkpoint 1): remove naturopathy and live blood analysis from site and profile, after the client's OK. Question goes into the client form. No change without a separate go.

▼ Raw data (2 sources)

- volume 03-demand/volume.json naturopath bali
- client-data 01-client/audit-reused/findings.json B13.05 conflict between profile and client decision; B05.06 naturopath 71.4 percent

LOC-004 **cut** **Area pages for Ubud, Seminyak and Uluwatu** 14 cut NONE ok Cut

WHY

No second address. The market leader in ozone holds an Ubud listing, Bali Healing does not. A page without an address and proof fails the place rule

Fit 0 of 3. Patient audience. Item type: cut-log.

NUMBERS

Demand	0	basis: none
Gap	25	0 of 12 local cover it
Fit	0	
Conversion	33	
Effort	67	higher = less work

Keywords (searches per month, 2026-10-11): clinic ubud **no data**, clinic uluwatu **no data**, doctor seminyak **no data**

Decision note: Rule: demand, catchment signal and unique local facts. No second address, so no area pages. Name the areas in text (CP-LOC-003).

▼ Raw data (1 sources)

- manual 01-client/client-baseline.md Area pages for Ubud, Seminyak and Uluwatu

Decisions for Martin

1. Naturopathy and live blood analysis (CP-SVC-026): remove from site and profile, or reinstate? Pages and profile contradict the client decision of 30 July.
2. Adjacent items (CP-SVC-023, CP-SVC-024, CP-SVC-025): breathwork, sound healing and screaming therapy; IV home service and Bali belly; general care. Only with the client's yes.
3. IV and acupuncture pages are set to noindex. Confirm that this is a mistake before the pool targets them.
4. Doctors and licences (CP-AUT-001): the client must give names, licence type and photos. No title without proof.
5. Price ranges (CP-SVC-005): the client must give the prices. Without them the pages stay drafts.
6. Is the third Google profile "Bali ThetaHealing" the client's own? Its website is balihealing.com.
7. Is EBOO the same as the hyperbaric major autohemotherapy? The query "eboo bali" brings visits.

Open facts from the client

[FEHLT]	BLOCKS ITEMS
Name and licence of the osteopath	CP-SVC-007
Price range in IDR per treatment	CP-SVC-001
Name and licence of the treating doctor	CP-SVC-001
Aftercare text from the doctor	CP-SVC-001
Price range per procedure	CP-SVC-003
Is EBOO the same as the hyperbaric major autohemotherapy? ('eboo bali' brings visits)	CP-SVC-003
Is a dermatologist or a general doctor doing the check? Title as allowed	CP-SVC-002
Name and licence of the acupuncturist	CP-SVC-006
Price per session	CP-SVC-006
Price list in IDR (the ads notes name 775,000 IDR for ozone as a competitor anchor only)	CP-SVC-005
Price per facial	CP-SVC-016
Which doctor leads the beauty clinic? Title as allowed	CP-SVC-020
Menu and price in IDR per drip	CP-SVC-004
Does the clinic offer home visits? (autocomplete: 'iv drip bali home service')	CP-SVC-004
Is 'Bali ThetaHealing' a third profile of the client? Its website is balihealing.com	CP-SVC-010
Is a gynecologist on the team? Do not use the word 'gynecologist' without one	CP-SVC-015
Typical WhatsApp reply time	CP-SVC-021
Phone number as a second path (the site shows none)	CP-SVC-021
Does the clinic offer Botox or fillers? Only then write about them	CP-SVC-018
Parking and access (stairs, step-free entrance)	CP-LOC-002
One valid phone number next to WhatsApp (the site shows none)	CP-LOC-002

Names, licence type and number, years, photos with consent for each practitioner	CP-AUT-001
Doctor answers for the top 10 questions	CP-SVC-022
Does the clinic offer breathwork, sound healing or screaming therapy?	CP-SVC-023
Which name does the client want on the sign and online?	CP-LOC-006
Doctor text for aftercare	CP-AUT-004
Does the clinic send a nurse to villas and hotels?	CP-SVC-024
Is a Bali belly service wanted?	CP-SVC-024
Is general care wanted?	CP-SVC-025
Typical drive times (check on a map, do not guess)	CP-LOC-003
Payment methods	CP-BRD-003
Languages spoken by the team	CP-BRD-003
Insurance receipts: yes or no	CP-BRD-003
One sentence from the doctors on how a consultation works	CP-BRD-005

The full list for the client is in 01-client/client-baseline.md section 8 and in the German form.
