Status: Bleibt = page stays as it is. Überarbeiten = URL stays, text new. Neu = new page with an origin in the client content or in the programme. Vorschlag = comes from search data only. Agree it with the client first (dashed card).

Why the core topics are hard to find today

1. **The homepage is thin.** It has 452 words. The floor is 612 words (median 874.5 words of the clinic homepages). The service pages have 175 to 1067 words. Most pages exist. The work is prices, proof, the doctors and a clear order.
2. **Two money topics are hidden from Google.** The IV drip page (2,578 words) and the acupuncture page (1,222 words) carry noindex and are not in the sitemap (live check 13.10.2026). "iv drip bali" has 1,300 searches a month.
3. **Brand search carries the site.** The homepage has 1,289 clicks in 3 months. The strongest service page is skin tag removal with 175 clicks.
4. **Short copies split the signal.** Some treatments have a short "About" page next to the full page, for example /gynecoaesthetic (80 words) next to /gyneco-aesthetic (674 words).
5. **Links are not the first gap.** The domain shows 1,001 referring domains, but most came in one spam wave (pool item CP-AUT-006). The profile name, prices and the doctors come first.

Rebuild along the CRO blueprint (10 rows): one H1, one sentence for what the clinic is, two doors (Wellness, Beauty) with one shared consultation (Martin 13.10.), proof strip, first-visit block with price ranges, doctors, reviews, FAQ, location.

452 words today, the same H1 twice, no phone number, no price.

Keyword **bali healing center** (140/month) GSC 3 months: **1289** clicks, **27,611** impressions **452** words today

- **A** Hero, title and H1: integrative clinic in Canggu (one H1 instead of two) CP-LOC-001
- **B** Location block: Jl. Pantai Batu Bolong 117X, map, WhatsApp, hours Mon-Fri 09-17 and Sat 09-13, access CP-LOC-002
- **C** Name the areas people come from in text (Berawa, Pererenan, Seminyak, Umalas) with drive times, no area pages CP-LOC-003
- **C** Structured data: MedicalClinic with hours, geo, sameAs, service list and areaServed CP-LOC-005
- **A** Price ranges on every treatment page (no page names a price today) and a clear line 'consultation first' CP-SVC-005
- **B** First visit and booking: how WhatsApp booking works, what the consultation is, reply time CP-SVC-021
- **B** Question hub: cost, safety, aftercare, who should not receive a treatment (from Google autocomplete) CP-SVC-022
- **A** One clear sentence for what Bali Healing is: a medical and holistic clinic in Canggu with two sides (Wellness, Beauty) CP-BRD-001
- **B** Two audiences, two doors: patients for health care and clients for beauty, with one shared consultation CP-BRD-002
- **C** For expats and visitors: English, WhatsApp, payment in IDR and by card, receipts for insurance CP-BRD-003
- **C** Voice and framing rules: no country references, 'Indonesian doctors and nurses', calm medical tone, no miracle words CP-BRD-004
- **C** Team and consultation-first method: how the services fit together, who refers to whom CP-BRD-005
- **B** Who treats: doctors and practitioners with names, licence type, years and photo (Indonesian framing) CP-AUT-001
- **B** Proof strip: Google 4.7 with 100 reviews, 'since 2006', treatments per year (only real numbers) CP-AUT-002
- **B** Reviews that name the treatment: ask in the booking flow, show quotes with consent, reply to every review CP-AUT-003

LEVEL	PLACES	SEARCH VOLUME / MONTH	ACTION
1 Core place	Canggu	bali healing canggu 40, clinic canggu 140, doctor canggu 90, iv drip canggu 390, facial canggu 480	Homepage and all service pages name Canggu. The clinic address is here.
2 Near areas	Berawa, Pererenan, Umalas, Seminyak	clinic berawa no data, doctor pererenan no data, clinic seminyak no data, doctor seminyak no data	Name them in the text with drive times (check on a map). No area pages.
3 Bali-wide service searches	Bali	iv drip bali 1,300, ozone therapy bali 210, acupuncture bali 260, skin tag removal bali 40, hypnotherapy bali 320	Service pages target "<service> bali". This is where most demand sits.
4 Far areas	Ubud, Uluwatu	clinic ubud no data, clinic uluwatu no data	No pages (CP-LOC-004 cut). Visitors from there find the Bali-wide service pages.

Rule: a place page needs demand, a catchment signal and unique local facts. No place passes all three today. "no data" means the volume tool has no record, not zero demand.
